FEEL GOOD INITIATIVE

BRAND IDENTITY BOOK

Do good.
Feel good.

The complete brand identity system for The Feel Good Initiative — protecting Hout Bay's coastline and building community, every single day.

PREPARED BY
CloudSync Media (Pty) Ltd

VERSION
1.0 — April 2026

FOR
Ryan Bluck & Sandy Daniel

CONTENTS

What's inside.

Everything you need to represent The Feel Good Initiative consistently across every touchpoint — from digital to physical.

01 Brand Strategy — 03
Mission, vision, values, and what makes TFGI different

02 Colour Palette — 04
Primary, secondary, and accent colours with usage rules

03 Typography — 05
Font families, scale, weights, and pairing rules

04 Tone of Voice — 06
How The Feel Good Initiative sounds — and what to avoid

05 Photography & Imagery — 07
Style guide for all visual content

06 Sponsor Co-Branding — 08
How partners use the TFGI brand alongside theirs

07 Merchandise & Signage — 09
T-shirts, bins, billboards, banners

08 Digital Presence — 10
Website, social media, and content direction

Why we exist.

The Feel Good Initiative began with one person picking up litter on Hout Bay Beach. Today, it's a multi-front movement for environmental protection and community upliftment.

Mission

Protect, restore, and beautify Hout Bay's beaches and public spaces. Create safe, accessible environments. Bring the community together. Create jobs. Inspire local pride.

Vision

Scale from a local initiative to a national model for environmental care and community upliftment — proving that consistent daily action creates lasting change.

Unique Value

Other organisations run occasional cleanups. We show up **every single day.** Our Beach Ranger walks the shoreline daily. Our bins are always there. Our projects are visible, local, and ongoing.

Tagline

Do Good. Feel Good.

Core Values

Community First
Every decision starts with the people it affects. We build for the community, with the community.

Environmental Stewardship
Protect first. Build second. The environment is the foundation, not an afterthought.

Consistency & Accountability
Not once a month. Every single day. We show up, and we prove it.

Local Pride
Built by Hout Bay, for Hout Bay. We restore pride in shared spaces.

Growth & Opportunity
Jobs, skills, and infrastructure that last beyond the project.

02 — COLOUR PALETTE

Our colours.

A palette rooted in the ocean, beach, and natural environment of Hout Bay. Professional enough for sponsors, authentic enough to feel real.

PRIMARY PALETTE

Deep Forest
HEX: #1A3C3C
RGB: 26, 60, 60
CMYK: 57, 0, 0, 76

Ocean Teal
HEX: #2A8B8B
RGB: 42, 139, 139
CMYK: 70, 0, 0, 45

Coastal Light
HEX: #5CBDAE
RGB: 92, 189, 174
CMYK: 51, 0, 8, 26

ACCENT & NEUTRAL

Sunset Orange
HEX: #D95A10
RGB: 217, 90, 16
CMYK: 0, 59, 93, 15

Teal Wash
HEX: #EDF8F6
RGB: 237, 248, 246
CMYK: 4, 0, 1, 3

Deep Dark
HEX: #122E2E
RGB: 18, 46, 46
CMYK: 61, 0, 0, 82

USAGE RULES

60–30–10 Rule

60% — Neutrals & backgrounds (Teal Wash, whites, light greys)
30% — Deep Forest & Ocean Teal (text, headers, cards)
10% — Sunset Orange (CTAs, highlights, urgency)

Accessibility

Deep Forest on white/wash backgrounds meets WCAG AA contrast. Ocean Teal on dark backgrounds meets AA for large text. Never place Coastal Light on white — insufficient contrast. Sunset Orange is for accents only, not body text.

03 — TYPOGRAPHY

How we speak visually.

Two complementary typefaces: one with presence for headlines, one built for readability in body text.

DISPLAY FONT

Josefin Sans

Used for all headings (H1–H4), the tagline, and feature numbers. Weights: Light (300), Regular (400), Medium (500), SemiBold (600), Bold (700).

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789 !@#$%&*()

BODY FONT

Plus Jakarta Sans

Used for body copy, labels, buttons, navigation, and UI elements. Weights: Light (300), Regular (400), Medium (500), SemiBold (600), Bold (700), ExtraBold (800).

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789 !@#$%&*()

TYPE SCALE (MAJOR THIRD — 1.25 RATIO)

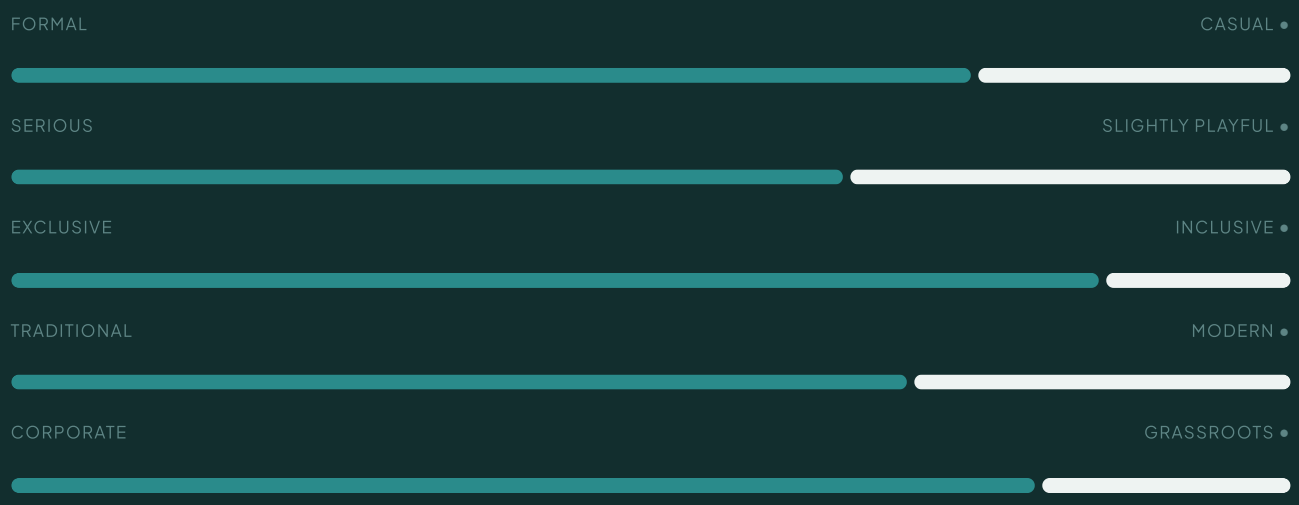
3XL — 48px	**Do good. Feel good.**
2XL — 39px	**Section Headline**
XL — 31px	**Card Title**
LG — 25px	**Feature Heading**
MD — 20px	Large body text and descriptions
Base — 16px	Standard body copy for paragraphs and content
SM — 14px	Secondary text, captions, and metadata

04 — TONE OF VOICE

How we sound.

Our brand voice is an energetic, approachable friend — someone in their mid-30s who's casual but purposeful, confident without arrogance.

BRAND PERSONALITY SPECTRUM



✅ Do Say

- "We show up. Every single day."
- "Invest in positive change"
- "Partner with us"
- "Support our impact"
- "Real impact. Real change."
- "Built by the community, for the community"
- "Join the movement"
- "Action creates change"

❌ Never Say

- "Aid" or "relief"
- "Hand-me-downs"
- "We aim to" (we DO, not aim)
- "Small initiative"
- "Budget-friendly"
- "Donate" (use "invest" or "partner")
- Guilt-driven or pity-based messaging
- Political or divisive content

THE BRAND SHOULD FEEL

Empowering · Joyful · Bold · Connected · Vibrant

Never Dull · Never Closed-Off · Never Helpless · Never Overbearing · Never Cynical

Visual storytelling.

Every image should feel real, professional, and purposeful — showing action, community, and the natural beauty of Hout Bay.

Image Style

Real, Not Stock

Use actual photos from beach cleanups, community events, and the Hout Bay coastline. Never use generic stock imagery. Authenticity is everything.

Professional Quality

Photos should be well-lit, properly composed, and high resolution. Professional enough for a sponsor pitch deck but natural enough to feel genuine.

Drone & Landscape

Aerial shots of Hout Bay Beach, Chapman's Peak, and the coastline add scale and visual impact. Use for hero sections and section backgrounds.

Subject Matter

Action Shots

People cleaning, building, collecting. Never posed or staged — always mid-action. The Beach Ranger walking the shore. Volunteers filling bags.

Community & Joy

Smiling faces, group shots, hands working together. Show the human side — this isn't a corporate initiative, it's a community movement.

Before & After

Document transformation. Show the problem and the solution side by side. This is powerful for social media and sponsor reports.

TREATMENT RULES

Colour Grading

Warm, natural tones. Slight boost to greens and teals. Never over-saturated or heavily filtered. The ocean should look like the real ocean.

Overlays

When using images as backgrounds, apply a gradient overlay matching brand colours (teal wash or dark) at 85–95% opacity for text readability.

Sensitive Content

Never show poverty, suffering, or exploitation. Show pride, action, and progress. Children require parental consent for photography.

06 — SPONSOR CO-BRANDING

Partners, not logos.

Sponsors are active partners in the mission. Their brand sits alongside ours with mutual respect — never above, never diminished.

Logo Placement Rules

Clear Space

The TFGI logo must have clear space equal to the height of the "F" in "Feel" on all sides. No other element should intrude into this space.

Minimum Size

Print: 30mm width minimum. Digital: 120px width minimum. Below these sizes, use the icon mark only.

Co-Branding Layout

On shared materials, TFGI logo appears on the left or top. Sponsor logo on the right or bottom. Separated by a thin vertical divider line in Ocean Teal.

Background Compatibility

On light backgrounds: use the full-colour logo. On dark backgrounds: use the white version. On photography: ensure sufficient contrast with an overlay if needed.

Sponsor Tier Visibility

Visionary (R5M+)

Full co-branding across all channels. Major naming rights. Logo on all materials, signage, and communications. Advisory seat.

Builder (R1M)

Permanent on-site plaque. Naming rights on pool features. Logo on website, events, and media. VIP launch access. Dedicated CSI case study.

Champion (R250K)

Featured in project media and press. On-site branding during construction. Annual CSI impact report for stakeholders.

Supporter (R50K)

Brand on website and materials. Social media features. Quarterly impact reports. Groundbreaking event invitation.

07 — MERCHANDISE & SIGNAGE

Physical touchpoints.

Every t-shirt, bin, billboard, and banner is an opportunity to reinforce the brand and spread the movement.

Apparel

T-Shirts

Primary: White tee with Ocean Teal logo on left chest. Tagline "Do Good. Feel Good." on upper back in Deep Forest. Secondary: Ocean Teal tee with white logo. Always use quality cotton — the merch represents the brand.

Volunteer Gear

Hi-vis vests or bibs with TFGI logo prominently displayed. Sponsor logos may appear on back panel below TFGI. Use Sunset Orange for volunteer-specific items to differentiate from general merch.

Caps & Accessories

Ocean Teal or Deep Forest base with embroidered white logo. Keep it clean — logo only, no tagline on small items.

Signage & Print

Community Bins

Deep Forest background with white TFGI logo and "Do Good. Feel Good." text. Sponsor logos in designated zone at bottom, never exceeding 30% of total face area. Weather-resistant vinyl wrap.

Billboards & Banners

High-impact: use a drone photo of Hout Bay Beach with dark gradient overlay. TFGI logo top-left, tagline centered, CTA bottom-right. Sponsor bar at bottom with divider lines between logos.

Event Signage

Pull-up banners: 850×2000mm. Use the Teal Wash background with Deep Forest text for readability. Include QR code to website. Sponsor logos along bottom edge.

PRODUCTION NOTES

Print Colours

Always use CMYK values from the colour palette. For Pantone matching: Ocean Teal ≈ Pantone 7473 C. Sunset Orange ≈ Pantone 1665 C.

Materials

Prefer recycled or eco-friendly materials where possible — consistent with the environmental mission. Vinyl for outdoor signage. 300gsm for business cards.

Quality Control

All physical items must be approved by Sandy Daniel before production. Proof must show accurate colour reproduction. No exceptions.

08 — DIGITAL PRESENCE

Online presence.

The website is live. Social media is next. Every digital touchpoint should reinforce the same brand identity.

Website

Live URL

feel-good-initiative.netlify.app — the single source of truth for the initiative online. All social bios and print materials should link here.

Key Sections

Our Story → The Vision → Projects → Community → Team → Sponsorship → Contact. This information hierarchy is optimised for sponsors first (primary audience), then community.

Design System

The website uses the exact colour palette, typography, and spacing defined in this brand book. It serves as the living reference for all digital design.

Social Media

Active: Facebook

@TheFeelGoodInitiative — 144 followers. Primary channel for community updates, event announcements, and sponsor recognition.

Active: TikTok

Beach Ranger David's channel — 14K+ followers. Raw, authentic daily content showing real beach cleanup work. This is the brand's most powerful organic channel.

Recommended: Instagram

Launch when ready with curated content. Focus on: drone shots, before/after, community events, sponsor spotlights. Use the brand colour palette for story highlights.

CONTENT PILLARS

Daily Action

Beach Ranger updates. Daily cleanup photos. "We showed up today" posts. Consistency is the brand — show it.

Community Impact

Stories from residents. Volunteer spotlights. Event recaps. Before/after transformations. Make people feel part of it.

Vision & Progress

Tidal pool updates. Sponsor announcements. Milestone celebrations. Media coverage. Show momentum and credibility.

Do good.
Feel good.

Protecting Hout Bay's beaches, building community infrastructure, and creating lasting change — every single day.
